Dear Commissioner Henney,

I am writing to you on behalf of
my patients.

What is happening with antibiotic
resistance, almost for sure at least in
part due to the extensive use of antibiotics
in animal husbandry, is very worrisome.

The European Union has understood the
odds and found the political will to take
action. It would unconscionable if we
continue to procrastinate! Now, before political
change takes place later in the year, is
the time to act. I urge you to be bold and ban
animal uses of selected antibiotics important for
my child-patients.

99P-0485

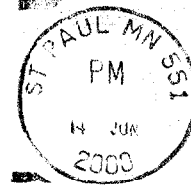

Thank you

Sincerely

J Barboza
